

LNS Webstream

An easy-to-implement, affordable tool to help you communicate with your entire audience. Whether attending in person, via the internet, using a smartphone or other electronic device, your entire audience will find LNS Webstream an effective communication resource.

- Live realtime captions, created by people.
- Americans with Disabilities Act and Section 508 compliant.
- Interface captions into live streaming video on your website.
- Meeting platforms such as WebEx, Adobe Connect, YouTube, and more supported.
- We have a great solution for meeting platforms that do not support captions: StreamCast. Very easy to use.
- Archival files available in many formats: .scc, .srt, .smi, .xml, .vtt, and more.
- Improve your website Search Engine Optimization (SEO) by making searchable text available.
- Experienced in live and post-production captioning since 1993.
- Recognized for responsiveness, accuracy and consistent quality.
- Overall 98.8% accuracy rating in 2018.
- All captioners certified by the National Court Reporters Association (NCRA).
- Captioning also available for social media, commercial spots, feature films, television series, educational videos, and internet broadcasts.
